# PRACTICE WORK 13

Write a C program to input an integer number and check the last digit of number is even or odd.

*HIREN LALANI*

## PRACTICAL NO.13

**AIM---Write a C program to input an integer number and check the last digit of number is even or odd.**

//file name ---even\_odd.c

```
#include <stdio.h>

int main()
{
    int i;
    printf("\n Enter any Number : ");
    scanf("%d",&i);
    if((i%10)%2==0)
    {
        printf("\n Last Digit of Number is Even");
    }
    else{
        printf("\n Last Digit of Number is Odd");
    }
    return 0;
}
```
